23                  The above-entitled Court, having received and reviewed Defendants Harborview Medical

<sup>1</sup> Under Local Rules W.D. Wash. 7(b)(2), “[e]xcept for motions for summary judgment, if a party fails to file papers  
32 in opposition to a motion, such failure may be considered by the court as an admission that the motion has merit.”

- 1      1. This Court lacks subject matter jurisdiction in that Plaintiffs' attempt to challenge the  
2                  results of a vulnerable adult protection proceeding and a guardianship proceeding  
3                  conducted by King County Superior Court is in violation of the Rooker-Feldman  
4                  doctrine and the Younger abstention doctrine.  
5      2. Plaintiffs have failed to file their tort claims in compliance with RCW 4.92.  
6      3. Plaintiffs' complaint fails to state a claim for which relief can be granted, fails to  
7                  establish a cognizable legal theory, and fails to offer sufficient facts to support  
8                  recovery of damages.

9  
10     The clerk is ordered to provide copies of this order to Plaintiffs and to all counsel.
